Service offensive for original spare parts Ensure your system availability

Nothing is more annoying than an unscheduled production loss from your system. In particular, if the necessary spare- / wear parts are not immediately available.

To support your preventive maintenance and to provide a meaningful spare parts package, we offer you a time-limited offer.

Our offer until August 31, 2019:

- 1 **5%** price advantage for an order value starting from **5,000 EUR**
- 2 **7,5%** price advantage for an order value starting from **15,000 EUR**
- 3 **10%** price advantage for an order value starting from **30,000 EUR**

Make use of the unique opportunity and allow us to advise you.
